

RCRAINFO FILE SPECIFICATION GUIDE 2003 HAZARDOUS WASTE REPORT
CHANGES BETWEEN THE DRAFT AND FINAL VERSIONS

1. *Page 4* - Added "GM1 - Added On-site Management as a required field"
2. *Page 4* - Added "GM1 - Added Off-site Shipment as a required field"
3. *Page 4* - reworded "CTL - The control file name must begin with CTL" to "CTL - The control file name must be named ssCTLnnn.FIL where ss is the state postal code and nnn is the Julian date when the file was created."
4. *Page 5* - removed "SI4 or SI5 - Required if Generator, Importer, Mixed Waste Generator, TSD, Recycler, Boiler and/or Industrial Furnace or Underground Injection Control is 'Y'"
5. *Page 5* - reworded "GM1 - The generated quantity must be > 0 and less than 99,999,999,998.999999" to "GM1 - The generated quantity must be > 0 and less than 99,999,999,998.999999 or equal to 0"
6. *Page 5* - Added "GM1 - On-site management indicator must equal 'Y' or 'N'"
7. *Page 5* - Added "GM1 - If the on-site management indicator equals 'Y' then GM5 information must be provided"
8. *Page 5* - Added "GM1 - If the on-site management indicator equals 'N' then GM5 information must not be provided"
9. *Page 5* - Added "GM1 - Off-site shipment indicator must equal 'Y' or 'N'"
10. *Page 5* - Added "GM1 - If the off-site shipment indicator equals 'Y' then GM4 information must be provided"
11. *Page 5* - Added "GM1 - If the off-site shipment indicator equals 'N' then GM4 information must not be provided"
12. *Page 6* - Removed SI4 from the list of flat files for the Form Site ID data that contain required data elements
13. *Page A-2* - reworded "**Required if MAIL_COUNTRY is not blank or MAIL_COUNTRY = 'UNITED STATES'" to "**Required if MAIL_COUNTRY is blank or MAIL_COUNTRY = 'UNITED STATES'"
14. *Page A-3* - Removed "Required Fields for Flat File SI4 or SI5"
15. *Page A-5* - Added On-site Management Indicator and Off-site Shipment Indicator to Required Fields for Flat File GM1
16. *Page A-5* - reworded the footnote for Required Fields for Flat File GM4 from "** For each waste stream, either Off-site Shipment information must be provided (GM4) or Onsite Management information must be provided (GM5)" to "** If the off-site shipment indicator in GM1 is equal to 'Y' then Off-site Shipment information (GM4) must be provided"
17. *Page A-5* - reworded the footnote for Required Fields for Flat File GM5 from "** For each waste stream, either On-site Shipment information must be provided (GM4) or Onsite Management information must be provided (GM5)" to "** If the on-site management indicator in GM1 is equal to 'Y' then On-Site Management information (GM5) must be provided"
18. *Page B-9* - reworded the note "The SI4 or SI5 file is REQUIRED if the facility is a generator, importer, mixed waste generator, TSD, recycler, burner and/or industrial furnace, or underground injection control facility." to "The SI4 file is NOT REQUIRED. The edits for this file apply only if you provide data for this file".
19. *Page B-9* - Removed edit SI815 from the Handler ID field
20. *Page B-10* - reworded the note "The SI4 or SI5 file is REQUIRED if the facility is a generator, importer, mixed waste generator, TSD, recycler, burner and/or industrial furnace, or underground injection control facility." to "The SI5 file is NOT REQUIRED. The edits for this file apply only if you provide data for this file".
21. *Page B-10* - Removed edit SI815 from the Handler ID field
22. *Page B-17* - Added On-site Management Indicator (field 13) and Off-site Shipment Indicator (field 14) to the flat file specifications for GM1
23. *Page B-20* - Removed edit GM115 from the Handler ID field
24. *Page B-21* - Removed edit GM115 from the Handler ID field
25. *Page C-7* - Removed edit SI815
26. *Page C-9* - Removed edit GM115
27. *Page C-11* - Added edits GM320, GM330, GM335, GM340, GM350, GM355
